## Our Trainers/ Programme Developers

We have gathered an eclectic group of trainers/developers who are former

- MOE CCE HODs;
- HQ Officers/Teachers;
- Corporate and School Leaders .

with over 80 years of collective experience.

They will be training, demonstrating and sharing on the approach to implementing Relational Circles as a whole school approach for both academic and pastoral curriculum areas. Our trainers have consistently received a rating of 3.8 out of 4 for this training.

Relational Circle (RC) is one of the widely used universal interventions in the promotion of social and emotional learning in schools. In RC, students are encouraged to develop their social and emotional learning in a safe and caring environment through a student-directed approach.

RC is a positive experience for the whole school community with benefits such as better teacher—student relationships, positive classroom climate and various social, emotional and academic benefits for the students, including enhanced motivation and engagement in academic learning. Teachers also mentioned that it helped them to maintain positive student behaviour at both whole school and classroom levels, and reported less challenging behaviour and bullying at the school and more compliance with school and classroom rules.
