LEVEL 1 SCHEMA THERAPY PRACTITIONER TRAINING
“THE MODEL, METHOD, AND TECHNIQUES”

Focus of the course: This introductory workshop will help attendees gain an understanding of the Schema Therapy model and provide an extensive platform for learning new skills and techniques used in Schema Therapy. The workshop will address both the schema and ‘mode’ models. The training is skills based, with multiple opportunities to learn complex techniques for working with difficult-to-treat clinical populations, with a particular focus on Borderline Personality Disorder and its treatment.

This workshop will provide participants with a good platform for learning and practicing skills, as well as direct coaching of skills therapists often feel less confident in applying. This workshop is accredited by the International Society of Schema Therapy (ISST) as a 3-day introductory workshop that can be used for the purpose of accreditation as a schema therapist (for more information on the ISST accredited training program see www.schematherapytraining.com).

Places are strictly limited to 20 participants to allow for better supervised practice and feedback. We expect this workshop to reach full capacity so please book early to avoid disappointment. To register please fill in the attached booking form and return to the Psychotherapy Society Hong Kong P.O. Box 12097, General Post Office, Central, Hong Kong. Please note that bookings will be confirmed only when payment is received.

PRESENTER BRIEF BIO:
Robert has extensive experience teaching and supervising on clinical psychology masters programs in Sydney since 2010. He has a major clinical and research interest in formulation and intervention with complex presentations that prove difficult to treat via standard evidence-based protocols.
